Yamin Hossain

Full-Stack AI Engineer | Next.js · Node.js · Python

Rajshahi, Bangladesh | +880 1706-960268 | **Email** | **LinkedIn** | **Github**

Full-stack engineer who builds and ships complete products, from Next.js dashboards to Node and FastAPI backends, with Docker and CI/CD. Published a PyPI developer tool and contributed to open-source projects including Remotion and n8n.

SKILLS

Frontend: React.js • Next.js • TypeScript • Tailwind CSS • HTML • CSS
Backend: Python • FastAPI • Node.js • Express.js • TypeScript • REST APIs • WebSocket • SSE
Databases: PostgreSQL • Prisma ORM • Redis • Neon
Infrastructure: Docker • Git & GitHub • CI/CD pipelines
AI: LangGraph • LangChain • RAG

PROJECTS

PR REVIEW AGENT — *Full Stack Web Application* *June 2026 – Present*
Personal Project | **Live Demo** | **GitHub** | **project video**

- Built a GitHub App (Marketplace-installable) that ingests 6 months of merged PR history and posts inline review comments referencing specific past decisions not generic rules making team knowledge searchable and persistent.
- Designed a 6-node LangGraph pipeline with chunked diff processing and pgvector cosine similarity search across 384-dimensional embeddings, surfacing decisions like "your team rejected this pattern in PR #234" with similarity scores.
- Architected webhook → BullMQ/Redis queue → FastAPI inference layer → Next.js dashboard with exponential backoff, rollback handling, and structured logging for incident traceability.

Tech: *Next.js · TypeScript · Node.js · Express.js · Python · FastAPI · LangGraph · LangChain · pgvector · PostgreSQL · Prisma · BullMQ · Redis · Docker*

YAMIN: Terminal AI Coding Agent *February 2026 - Present*
PyPI | **GitHub**

- Published a CLI coding agent on PyPI (`pip install yamin`) that reads and searches a codebase, edits files and runs commands from any project folder.
- Added provider-agnostic support for Groq, OpenAI, Gemini, Claude, Hugging Face and any OpenAI-compatible endpoint such as Ollama, with models fetched from the chosen provider. API keys stay on the user's machine.

Tech: Python • PyPI • packaging • CLI

CONTRIBUTION

- **n8n** (workflow automation) | PR **#35894**: Fixed MCP settings page counters showing 0 before async loads finished; added loading placeholder.
- **inkbox** | PR **#128**: Fixed Windows crash in the Python SDK by making the POSIX-only `O_NOFOLLOW` flag conditional.
- **Remotion** (52.6k+ stars) | PR **#7074**: Added `preserveSilence` to `renderMediaOnWeb()` so silent head/tail frames are kept, with a regression test.
- **Remotion** (52.6k+ stars) | PR **#7107**: Extended `playbackRate` validation in `@remotion/player` from ±4 to ±10 to match modern browsers; updated docs and tests.

Tech : *TypeScript · React · Web Audio API · Bun · Python*

EDUCATION

Varendra University *Oct 2022 – July 2026*
Bachelor of Engineering in Electrical and Electronic Engineering
